

# Release Notes: Atlas Chiropractic System Update v5.30

Version: 5.30

## How do I know which version I am running?

Check the title bar in your Atlas Software. The title bar displays the Atlas Chiropractic Software name, the Current Logged In Atlas User, the Current Logged in Windows (Computer) User and the current Program (P) and Database (D) version number.

## What's Fixed

- Sticky Notes now open on log in when force login option is not set
- Accounts Receivable balances reflect the balance on the “as of date” selected when running the report
- Payment detail field resized to prevent error when the last 4 digits of the card are included
- Prevent early update notification when unable to reach registry server
- Modification to problem field when using Flex to make it accessible to iPads/Safari
- Revert to enhanced toolbar when running the Accounts Receivable report
- Load Atlas into CHAS when set to start in VTC but provider not set or no applicable user
- Modified check for nothing to report on the Accounts Receivable report to prevent error
- Ensure room is selected to run image importing before launching Millennium import
- Add email driver key to all secondary applications within Atlas

### **Customer Support:**

*Atlas Support personnel are trained specifically on the Atlas Chiropractic Software. On occasion, they are able to assist with general computer support (networking, antivirus, and configuration). Atlas recommends that issues outside of the scope of Atlas Support be directed to the appropriate Support professional. A qualified, onsite IT technician can provide you with the most accurate information to resolve your Technical Issues. Atlas Support may be able to assist your technician in resolving issues regarding your Operating System or System Maintenance, to help facilitate the proper function of Atlas.*
