

Release Notes: Atlas Chiropractic Systems Update

ver. 4.4

How do I know which version I am running?:

Check the title bar in your Atlas Software. The title bar displays the Atlas Chiropractic Software name, the Current Logged In Atlas User, the Current Logged in Windows (Computer) User and the current Program (P) and Database (D) version number.

What's New? Quick View:

- Document folders can be defined and used to store patients documents in a specified order
- Increased the maximum amount of appointments that can be mapped before saving from 500 to 2000 appointments
- Set North American phone masks under Country setup where not previously set
- New balance transfers have the pay type of "transfer" and show as such on the Summary of Receipts to allow transfers between providers

What's Fixed? Quick View:

- Streamlined processes used to refresh the schedule when changing Dates and Providers to increase efficiency
- Optimized the load of new patient profiles
- Add Plan button on Chas plans tab disabled when cash is closed
- Refreshed schedule titles (date, provider, and counts) immediately after switching tabs to ensure title matches
- Re-enabled the unlock user button when required
- Prevent Patient appointment ledger from refreshing while scrolling
- Resized schedule as required when shrinking from the expanded schedule view
- Hide patient images(xray, posture, etc) when patient's appointment ledger is expanded
- Correction made when deleting appointments within a date range for a patient
- Invalid appointments report now opens when requested
- Inactivity Timeout now observes the time set in Security Settings
- Remove from insurance button from Insurance file history screen no longer logs an error when clicked
- Correcting the company after selecting a phase when adding a new insurance file properly removes the original
- Claim totals in 5010 submission file calculate correctly when more than 50 line items per patient in a single file
- Modified the generic insurance statement to display the plan number when filled in
- 5010 submission file uses the SSN flag when submitting a claim number and insurance is not property/casualty
- Day sheet lists returned to single spacing
- Saving a care report to a file respects the path as selected including spaces
- Maintenance mode modified to return to the original functionality
- Optimized insurance payments
- Changed the order in which appointments are arrived at the table when using scheduled or patient's provider
- Changing appointment types from the daily schedule has been sped up
- Pressing a spine button no longer jumps the current SOAP note to the top after entering
- Invalid appointment listing now lists all patients with invalid appointments
- Visual calling grid no longer shows only the last patient
- Name tokens now function properly when emailing a patient statement

Customer Support:

Atlas Support personnel are trained specifically on the Atlas Chiropractic Software. On occasion, they are able to assist with general computer support (networking, antivirus, and configuration). Atlas recommends that issues outside of the scope of Atlas Support be directed to the appropriate Support professional. A qualified, onsite IT technician can provide you with the most accurate information to resolve your Technical Issues. Atlas Support may be able to assist your technician in resolving issues regarding your Operating System or System Maintenance, to help facilitate the proper function of Atlas.

Support Contact Information:

Mon-Thur: 8am to 7:30pm EST Fri: 8am to 4:30pm EST

Phone: 1-866-76ATLAS (2-8527)

Fax: 1-877-342-3266 or 1-226-316-1900

Email: support@atlaschirosys.com
